Sonatina Album: A Collection of Favorite Sonatinas, Rondos, and Other Pieces for the Piano

Originally compiled and edited by Louis Köhler, this edition contains some of the most popular keyboard sonatinas, rondos, and other works (including symphonic transcriptions) of Beethoven, Clementi, Haydn, Kuhlau, and Mozart, among others. In clarifying this edition, editor Allan Small has removed impractical fingerings and unnecessary accidentals found in other editions. The comb binding creates a lay-flat book that is perfect for study and performance.

Review 3:

i actually bought this book because my nephew's teacher got him a copy. i found that the pages are easy to read and follow - something that was a problem in a different book that i bought. i like the selection of songs and skip around depending on what i feel like playing!

Review 4:

My piano teacher started me on a Sonata in this book last year. I wanted to have my own copy so ordered it from Amazon. The price was right and it was delivered very quickly. We have just started another Sonata and I am enjoying it very much.
