### Eminent Mainers: Succint Biographies of Thousands of Amazing Mainers, Mostly Dead, and a Few People from Away...

Among others, you'll meet Princess Salm-Salm, born Agnes Joy in 1840, who first achieved notoriety as a circus performer playing the accordion while riding a galloping horse, went on to marry a prince, and ended up the first woman awarded the Prussian Medal of Honor. Maine? boring? Never! Maine is a rural backwater? Meet Hiram Abrams, born in Portland in 1878 the son of a Russian immigrant real estate broker, attended public schools, left school at age sixteen, sold newspapers, bought a cow and started a dairy -- and eventually became the founder and president of United Artists. Or Aurelia Gay Mace, born in 1835 in Strong, a Shaker from an early age, credited with the invention

### Life as Sport: What Top Athletes Can Teach You about How to Win in Life

Why do sports captivate people? They allow us to watch human beings achieve peak performance, but, beyond physical strength and skill, what's really impressive is an athlete's mental prowess; their will to succeed, engagement with their environment, and self-confidence. In Life as Sport,

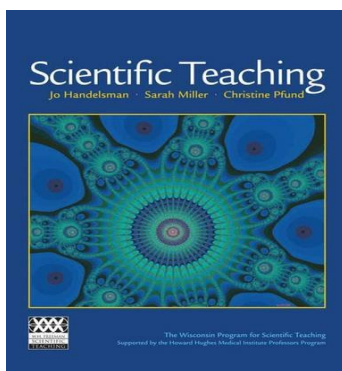

### How to Prepare for the ToEIC Test: Test of English for International Communication

The compact discs in this package are designed to complement Barron's How to Prepare for the TOEIC Test, 3rd Edition. Material on these CDs contains listening comprehension passages and exercises to help students prepare for the Test of English for International Communication. The compact discs can

### The New York Code of Civil Procedure ...

This is an EXACT reproduction of a book published before 1923. This IS NOT an OCR'd book with strange characters, introduced typographical errors, and jumbled words. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either par

### The Death of Nature: Women, Ecology, and the Scientific Revolution

An examination of the Scientific Revolution that shows how the mechanistic world view of modern science has sanctioned the exploitation of nature, unrestrained commercial expansion, and a new socioeconomic order that subordinates women.

What others say about this ebook:

**Review 1:**

Interesting, but kind of dry... wish there had been a better way to get the same info...

**Review 2:**

Read about all the important, interesting and eccentric people of the great state of Maine. This great guide was compiled and edited by a sweet, quirky man, Arthur Douglas Stover, about whom few facts are known, but as one friend puts it, "stories abound." Read one of his stories today!

**Review 3:**

Lucky you are, you people of Maine, because you can enjoy in person the stories told by Doug Stover. But now, the publication of this book, Eminent Mainers, allows all of us to savor Doug's stories at our leisure. And what a delight they are. Who can forget Hiram Maxim and his machine gun or the man who knew he would be reincarnated as a sheep or the man who wore a handkerchief over his face? Please don't spend all your money buying copies of this book to give to your friends - we need to take up a collection so Doug could return where he grew up and compile another book, Fabulous Floridians.

**Review 4:**

This book is a great resource for teachers, especially those who teach history, government, literature, and biography. Teachers live by the stories they tell, stories that link to people, places, and events. Eminent Mainers

is about Americans: native born, immigrants, and descendents. It is illuminating, hysterically funny, and most of all, useful! Buy it for every teacher you know and they will love you forever!

**Review 5:**

What an incredible amount of work has gone into this unique book. It's about much more than Maine. Through succinct details of hundreds of lives it provides a snapshot of the creative energy that has made the USA what it is today.
