The Road to Hell (Multiverse Series)

Entry #3 in the popular Hell's Gate series by 28 times New York Times best-selling author David Weber and Joelle Presby. The war between magically-gifted Arcana and psionically talented Sharona continues to rage. The dragon-borne Arcanan assault across five universes has been halted at Fort Salby by a desperate defense, but at atrocious cost. One of those costs was the life of Crown Prince Janaki, heir to the newly created Sharonian Empire, who went knowingly to his death in the tradition expected of the House of Calirath. And another price will be the sacrifice of his younger sister, Grand Imperial Princess Andrin, now heir of Sharona, for the accords creating th

The Top Hat, the Grey Wolf, and the Crescent: Turkish Nationalism and the Turkish Republic

In recent years, nationalism has reasserted itself globally as a potent, mobilizing political force. In Turkey, the perilous state of politics--indeed the crisis of identity in the state itself--is a symptom of the rift between the secular and Islamic nationalists, today the focus of intense and ac

What others say about this ebook:

Review 1:

Individual portions of the book are quite compelling, but too many sub-plots and characters bogs down the storyline.

Review 2:

I read books 1,2 and 3 straight through and am now annoyed that I have to wait for who knows how long till the next one. Mr Weber you are a great author but you have so many universes that you are writing about (Multiverse, Honorverse, Safehold) that as a fan can you please stay with one 'verse to the end. It is a good read, lots of great characters, lots of plot twists, and very enjoyable, but FFS stop keeping us hanging on cliffs! I agree with one previous correspondent that at some stage it would not be surprising if our own universe comes into the story lines. Otherwise why do we keep being told that is 1928/9 back in the real world?

Review 3:

Finally!

Review 4:

The long awaited next volume in the multiverse series. It fleshes out the "physics" of the previous volumes. A bit slower paced perhaps but still well worth reading. Light summer fare! I have never had a Weber novel that disappointed.

Review 5:

A great addition to the series and another great novel for Weber. The conflict between the two opposing ways of life is heating up and it looks like forces within each side may worsen and prolong the conflict due to their own agendas. I can't wait for the next one.

The Road to Hell by David Weber and Joelle Presby - Baen Ebooks

Mar 1, 2016 ... The Hell's Gate series is awesome, with a multiverse of possibility, at least as much as the Honorverse and possibly more than the Safehold series, at least to date. Unfortunately, I felt that The Road to Hell didn't do it full justice, a complaint I seem to be making about a number of recent Weber works.
