WANT TO BECOME A BETTER RISK-TAKER?

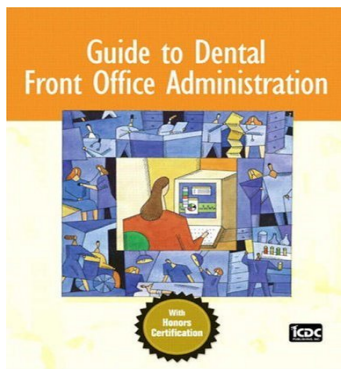

In *The Art of Risk*, intrepid journalist Kayt Sukel combines recent neuroscience and jaw-dropping stories from real-life risk-takers, asking what makes one person dive in and another shrink from risky situations. Along the way, she guides our understanding of what we can and can't change about ourselves—and how to make the most of what life throws our way.

“Intelligent, informed, and deeply curious, *The Art of Risk* is a revelation.”
—WILLIAM SAUNDERS, Pulitzer Prize finalist and author of *Under a Wild Sky*
“A fascinating and beautifully written tour de force on the curious way our brains weigh decisions.”
—CHRISTINE GILBERT, founding blogger of *AlmasFourles.com* and National Geographic Traveler of the Year
“This book is a road map for understanding boldness. Read it and get ready for a better lifestyle.”
—TOM R. KANTZMAN, professor of psychology, George Mason University, and author of *The Upside of Your Dark Side*
“A smart, lively book that makes you want to reexamine the decisions you've made in your own life.”
—JESSA PINCOFF, author of *Do Chocolate Lovers Have Sweeter Babies? The Surprising Science of Pregnancy*

The Art of Risk: The New Science of Courage, Caution, and Chance

Are risk-takers born or made? Why are some more willing to go out on a limb (so to speak) than others? How do we weigh the value of opportunities large or small that may have the potential to change the course of our lives? These are just a few of the questions that author K

What others say about this ebook:

Review 1:

Great book.

Review 2:

Beautiful interiors. An amazing book when you're in the process of furnishing your brand new home and you change your concept every 2 days :)

Review 3:

This little bundle of goodness just arrived on my front door and I am smitten! The architecture and design is absolutely beautiful, and the photography is stunning. The spaces reflect a variety of design styles, yet there is a cohesiveness that makes each of the come together in a very unified way. There is a nice mix of colorful and neutral spaces, and each space flows gracefully into the next. Great inspiration for anyone interested in home decoration, or for anyone interested in art and travel. I also really appreciated that it was not obvious at-first-glance where the interior was located. A validation that good design is very universal! I do not own Volume 1 of this book, but I will be adding it to my list. Another beautiful book by Taschen.
